DIRECTOR, NAVAL WARFARE

30 DEC 1983

Dear Mr. Gates,

I am presently conducting a search for candidates to fill the senior civilian billet on my staff, the Technical Advisor to the Director, Naval Warfare (the Senior Executive Service position previously held by Dr. Alf Andreassen). It is an extremely critical position for the Navy calling for an individual with full appreciation of the relationship of science and technology to the Navy, the ability to deal professionally with our top-level leadership both within and outside the Navy, and a sense of dedication to our country. This individual must have breadth, a sense of purpose, and be willing to take the initiative to seek solutions. For the person selected this would be a good opportunity to make valuable contribution in public service while broadening his horizons in a varied, fast-paced, multi-dimensional environment.

Because of your knowledge of both the position and Op-095, and because of your personal involvement and reputation in many of the areas in which the selectee would function, I thought that you might be able to help me to identify a few suitable candidates. I would greatly appreciate your time in doing so and your encouragement of those you recommend to apply for the position. I am enclosing a copy of the vacancy announcement.

Thank you for your help in this very important selection.

Sincerely,

LEE BAGGETT, Jr.
Vice Admiral, U.S. Navy

ISSUED BY: THE OFFICE OF THE CHIEF OF NAVAL OPERATIONS
WASHINGTON, D.C.

POSITION TITLE: Technical Advisor, Directorate of Naval Warfare
ES-1301 (GENERAL POSITION)

Persons newly selected for appointment to an SES position must have their managerial qualifications approved by the Office of Personnel Management and will be required to serve a one-year probationary period. Veterans preference does not apply in SES. Salaries for SES positions range from ES-1 to ES-6. Career appointees in SES are also eligible for performance awards plus special rank designations with corresponding payment in addition to base salary. There is no requirement for one year of experience at the GS-15 level, SES positions are not subject to the DOD Stopper List, Reemployment Priority List or other Navy Reassignment Lists.

LOCATION: Office of the Director of Naval Warfare, Office of the Chief of Naval Operations

AREA OF CONSIDERATION: Nationwide throughout the Federal Service. The search for candidates for SES positions include all groups of qualified individuals within the Executive, Judicial, and Legislative branches of the Federal Government and from the private sector.

DUTIES AND RESPONSIBILITIES:

The incumbent is responsible for advising and assisting the Director of Naval Warfare in the assessing of all research, development and technical programs relating to Naval Warfare. He/she evaluates systems and hardware, existing or being developed and recommends changes, continuation or elimination based upon technical analysis of their costs, effectiveness and necessity. Also, the incumbent evaluates new proposals and plans new research and development efforts. New technology is reviewed for application to Navy operations. Financial resources are considered by the incumbent during the review of systems and projects for cost effectiveness and establishment of priorities. The Technical Advisor maintains liaison and contact with personnel within Navy, DOD, other government agencies and private industry in order to ensure a current knowledge of technology which could be applied to the Navy's functions and operations. As a senior technical and scientific advisor, the incumbent participates in the formulation of such policies as they pertain to Naval Warfare.
